

Joint Venture Capabilities Statement

Overview

Diné Gray & Pape is a non-populated tribal 8(a) joint venture between the BRIC, LLC, a subsidiary of the Diné Development Corporation, wholly owned by the Navajo Nation, and Gray & Pape Heritage Management. The BRIC is an SBA 8(a) Certified, Small Disadvantaged Business (SDB), providing professional science and technical services based in Albuquerque, NM, with 36 employees and \$4.5M in revenue projected for 2019. The firm has 25 years of experience in providing professional services in CRM & natural resources, environmental compliance, operations & maintenance, and technology. Gray & Pape is a small-business enterprise with 32 years' experience specializing in a CONUS/OCONUS practice that delivers cultural heritage management services to our public and private industry clients. The firm averages \$6M in annual revenue, with 50 employees based in the Cincinnati, OH, HQ and offices in Florida, Georgia, Indiana, Maryland, Rhode Island, Texas, and Virginia. Gray & Pape provides its clients with a diverse range of cultural heritage services: CRM/cultural heritage management, historic preservation and planning services, international cultural heritage requirements, maritime archaeology, and Tribal consultation/engagement. The DGP Program Manager is a cultural resource professional with 30 years of experience as a Program Manager for DoD clients. He is expert in managing all facets of cultural resources services, understands Navy mission, has over a decade of experience managing Joint Venture programs, and enjoys a prior working relationship with Gray & Pape.

Cultural Heritage Management

Diné Gray & Pape brings more than 50 years' combined experience in the delivery of cultural heritage management services to public clients. We support federal agencies by advancing cultural resource studies for NHPA/Section 106 and NEPA compliance, and by achieving their project and program goals while helping them to identify and manage cultural heritage opportunities and responsibilities. Our clients benefit from a diverse range of services that go beyond archaeology and public history to include cultural heritage program support, maritime archaeology, preservation planning, disaster management and recovery, community engagement and public interpretation, and collaboration with sovereign Indian tribes. We advise our international clients on how to align their projects with the Equator Principles and International Finance Corporation's environmental and social performance standards. Diné Gray & Pape professional staff is comprised of architectural historians, archaeologists, historic preservation planners, historians, and GIS specialists located in offices across the country. Each exceeds the Secretary of Interior's Professional Qualifications Standards (36 CFR 61) and are listed as qualified professionals on State Historic Preservation Office consultant lists across the country.

Tribal Consultation

Earl Evans, Diné Gray & Pape Tribal Engagement Specialist, is an enrolled citizen of the Haliwa-Saponi Indian Tribe and is a tribal delegate to the National Congress of American Indians. He has over 20 years of formal involvement in issues impacting American Indian tribes, including government relations, community development, environmental and cultural planning, environmental justice, cultural and historic preservation consultation, and economic development. Our team works with project stakeholders to facilitate the consultation process so that culturally appropriate, respectful decisions can occur in a way that is satisfactory to Indian tribal nations and sensitive to project requirements and agency responsibilities. We support federal agency goals to build cooperative long-term relationships with tribes that attach cultural and religious significance to archaeological sites and ancestral remains. Engagement may culminate in the incorporation of tribal cultural specialists on project surveys, creation of Tribal Consultation Teams, incorporation of tribal knowledge into archaeological documents, and development of cultural competency training.
