

CAPABILITIES

Gray & Pape, Inc., is a small-business enterprise with over 30 years' experience specializing in a CONUS/OCONUS practice that delivers cultural heritage management services to federal agency and public clients. We represent the interests of the agency in advancing cultural resource studies for NHPA/Section 106 and NEPA compliance. We support our clients to achieve their mission and program goals while helping them to identify and manage cultural heritage opportunities and responsibilities. Our clients benefit from a diverse range of services that go beyond archaeology and public history to include cultural heritage program support, maritime archaeology, preservation planning, disaster management and recovery, community engagement and public interpretation, and collaboration with sovereign Indian tribes. We advise our international clients on how to align their projects with the Equator Principles and International Finance Corporation's environmental and social performance standards. The firm averages \$6M in annual revenue, with 50 employees experienced in providing federal agencies with professional services in cultural resource management nationwide, including Alaska. The firm's professional staff is comprised of architectural historians, archaeologists, historic preservation planners, historians, and GIS specialists located in eight offices across the country. Each exceeds the Secretary of Interior's Professional Qualifications Standards (36 CFR 61) and are listed as qualified professionals on State Historic Preservation Office consultant lists across the country.
